

Neighborhood Plant Walk

Spot native plants and tree tin your neighborhood or in Hoyt Arboretum.

Supplies:

- Clipboard
- Field Guide ID (below)
- Activity Sheet (below)

Instructions:

- Take a walk around your neighborhood, local park or and look around at the plants and tree you are able to see. Use the Field Guide ID to take notice of what native plants that you can find.
- The Activity Sheet below can be used to record any plants and trees you can find. Draw them and write the name underneath.
- BONUS: when on your plant walk do you see any birds or bugs on plants and trees? Are birds and bugs using the native plants? How? Record your findings in your Activity Sheet.
